

TOP SIXTH FORM FOR COMPUTING

Welcome to Ada, The National College for Digital Skills

WELCOME

"Welcome to Ada, the National College for Digital Skills, where your tech career begins. With over 100,000 unfilled tech jobs in the UK and the rapid rise of AI, the demand for skilled professionals is soaring as technology transforms roles across all industries. At Ada, we see the immense opportunities for young people to build successful careers in fields like software development, cybersecurity, games design, and data analysis.

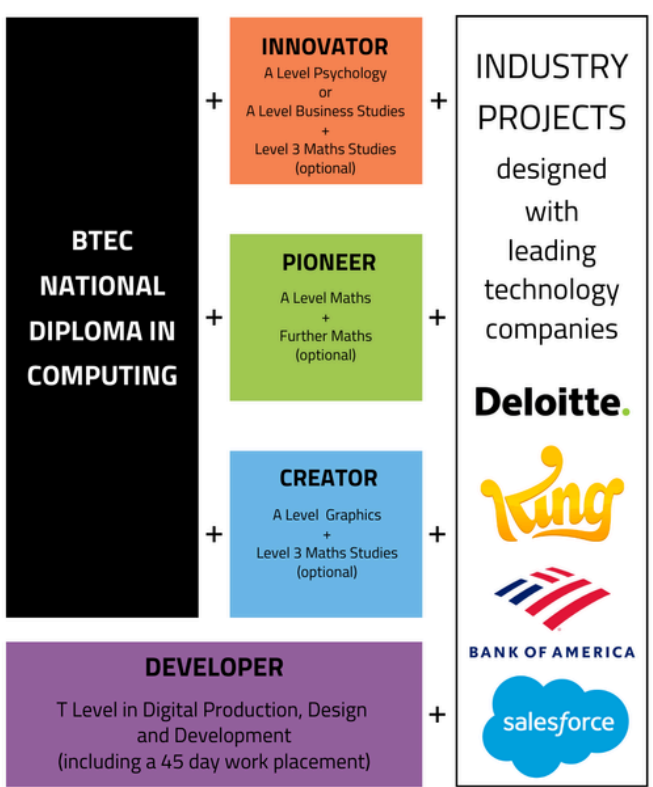

Our Sixth Form curriculum develops creative, technical, and entrepreneurial skills through expert knowledge and industry insights. Students will engage in hands-on learning, including termly industry projects where they address a challenge set by our Industry Partners. Our provision is enhanced by the Ada Skills Programme, which nurtures learners in developing interpersonal tools to tackle broader challenges.

We are proud to work closely with leading companies like Deloitte, Bank of America, and King, ensuring the curriculum reflects the latest industry trends. I look forward to welcoming you to our Westminster campus, where you can discover how Ada can be the beginning of your successful tech career."
